Art Unit: 2816

1. The amendment filed on 3/10/05 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-3, 23 and 30-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Osborn et al.

See paragraph three of the previous office action for the details of this rejection. As to the new limitation added to claims 1, 23 and 30, this operation will inherently occur in the Fig. 4 circuit of Osborn et al and thus is insufficient to overcome the anticipation rejection. In other words, a predetermined difference between the voltage levels on lines 234 and 236 will clearly be determined in accordance with temperature changes, because when the temperature of the Fig. 4 circuitry goes up (and reaches a certain level) the output of comparator 230 will change in response thereto. Thus, the claim amendment put forth by applicant is not seen to distinguish over the circuitry of Osborn et al.

4. Claims 4-11, 15-22 and 34-37 are allowed.

Art Unit: 2816

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
